Welcome to GD Simpsons Services Limited
CONNECTING YOU TO ENGINEERING SOLUTIONS
UGANDA | RWANDA

ABOUT US

GD Simpsons Services Limited is a Company dealing in design, supply, installation, integration and commissioning of electrical & mechanical systems, solar & energy, ICT & security systems and minor civil works for construction and completed Projects.

We also undertake design and build Projects in the above fields with modern and efficient operations across the country. The firm is strategically placed to serve clients' growing needs.

We are located at Plot 2D/E Nakasero Hill Road, Kampala, Uganda and maintain field offices depending on specific project implementation requirements. We have a Rwandan affiliate office located at Kigali Heights Building in Kigali.

The Company is client oriented and offers good quality services timely, efficiently and effectively.

Vision

A Competent Client Value-adding Company.

Mission

To achieve excellence in our diversified services through innovative and new age solutions by embracing employees. Talent and creating a conducive environment to promote stakeholder growth.

Values

These values define who we are and what we do:

- Professionalism
- Integrity
- Customer Satisfaction
- Corporate Social Responsibility
- Teamwork
- Task Oriented
- Innovation and Creativity

WHY GD SIMPSONS

Over the years GD Simpsons Services Limited has built an expert team of capable highly motivated manpower who take pride in our commitment to clients, delivering and maintaining the highest quality level of service and support.

Staff and Personnel

The firm's principals and staff provide a loyal commitment to our clients while maintaining strict control of cost, safety and construction administration. The understanding that a building, of any type, belongs to a client, or an organization, while it also participates in its environment: urban, historic, industrial or cultural. Our work respects the needs of business, of municipalities, and of the occupants by considering this complex interplay of participants from the outset of every project.
